ASX Announcement – Petroleum Tenements

17 March 2017

PETROLEUM TENEMENTS HELD

Pursuant to ASX Listing Rules 5.37 and 5.4.3 the Company is required to provide a listing of petroleum tenements held by the Company and its subsidiaries.

Attached is a report listing all petroleum tenements held by the Company and its subsidiaries as at 31 December 2016. Given the size of the report (61 pages) the Company has elected to disclose this report as a separate announcement and will reference this announcement in the Company's future Annual and Quarterly Reports.

ABOUT EMPIRE ENERGY GROUP LIMITED

Empire Energy is a conventional oil and natural gas producer with operations in Appalachia (New York and Pennsylvania) and the MidCon (Kansas and Oklahoma). The Company has ~14.6 million acres in the McArthur & Beetaloo Basins, Northern Territory, both of which are considered highly prospective for large shale oil and gas resources. Work undertaken by the Company over the past 5 years demonstrates that the Central Trough of the McArthur Basin, (of which the Company holds around 80%), is a major Proterozoic depo-centre that forms one segment of a series of extensive prolific hydrocarbon basins similar to those extending through Oman, Siberia and Southern China and which contain resources of billions of barrels of oil equivalent.

EMPIRE ENERGY GROUP LIMITED - OIL AND GAS TENEMENTS (USA)

(1) Note: The NRI is an approximation only and has been calculated as follows:

- Typically the Northern Territory state royalty system is based on a notional 10% wellhead value, ad valorem type royalty with deduction for certain expenses including costs associated with transportation of product to market. Typically this reduces the effective ad valorem royalty to ~7% of well head value.
- In addition, the Company will pay both a royalty and a 'Blue Sky Profit' under the terms of the actual and proposed terms of agreement with the Traditional Land Owners for each lease. These arrangements are 'Confidential' but would add around a further 4% to 5% in royalties at current well head values.
